

HD Series

Versatility built tough

The most versatile pad printer on the market:

- Incredible capability to print many types of applications
- Adjustable cliché stroke allows running a 225mm long cliché to a 400mm long cliché
- In just minutes switch to printing with a cup slide with a long print capability up to 110cm

Items such as yard sticks, shovel handles, and catheters are just a few types of products perfect to print on this printer.

With frame constructed support and pad pressure @ 3000N, the HD pad printer is built to last.

Features:

- Six inch vertical pad stroke
- Touch screen interface panel
- Up to six colors with 90mm ink cups
- Up to five colors with 130mm ink cups
- Up to three colors with 180mm ink cups
- Cup slides to 110cm printable length

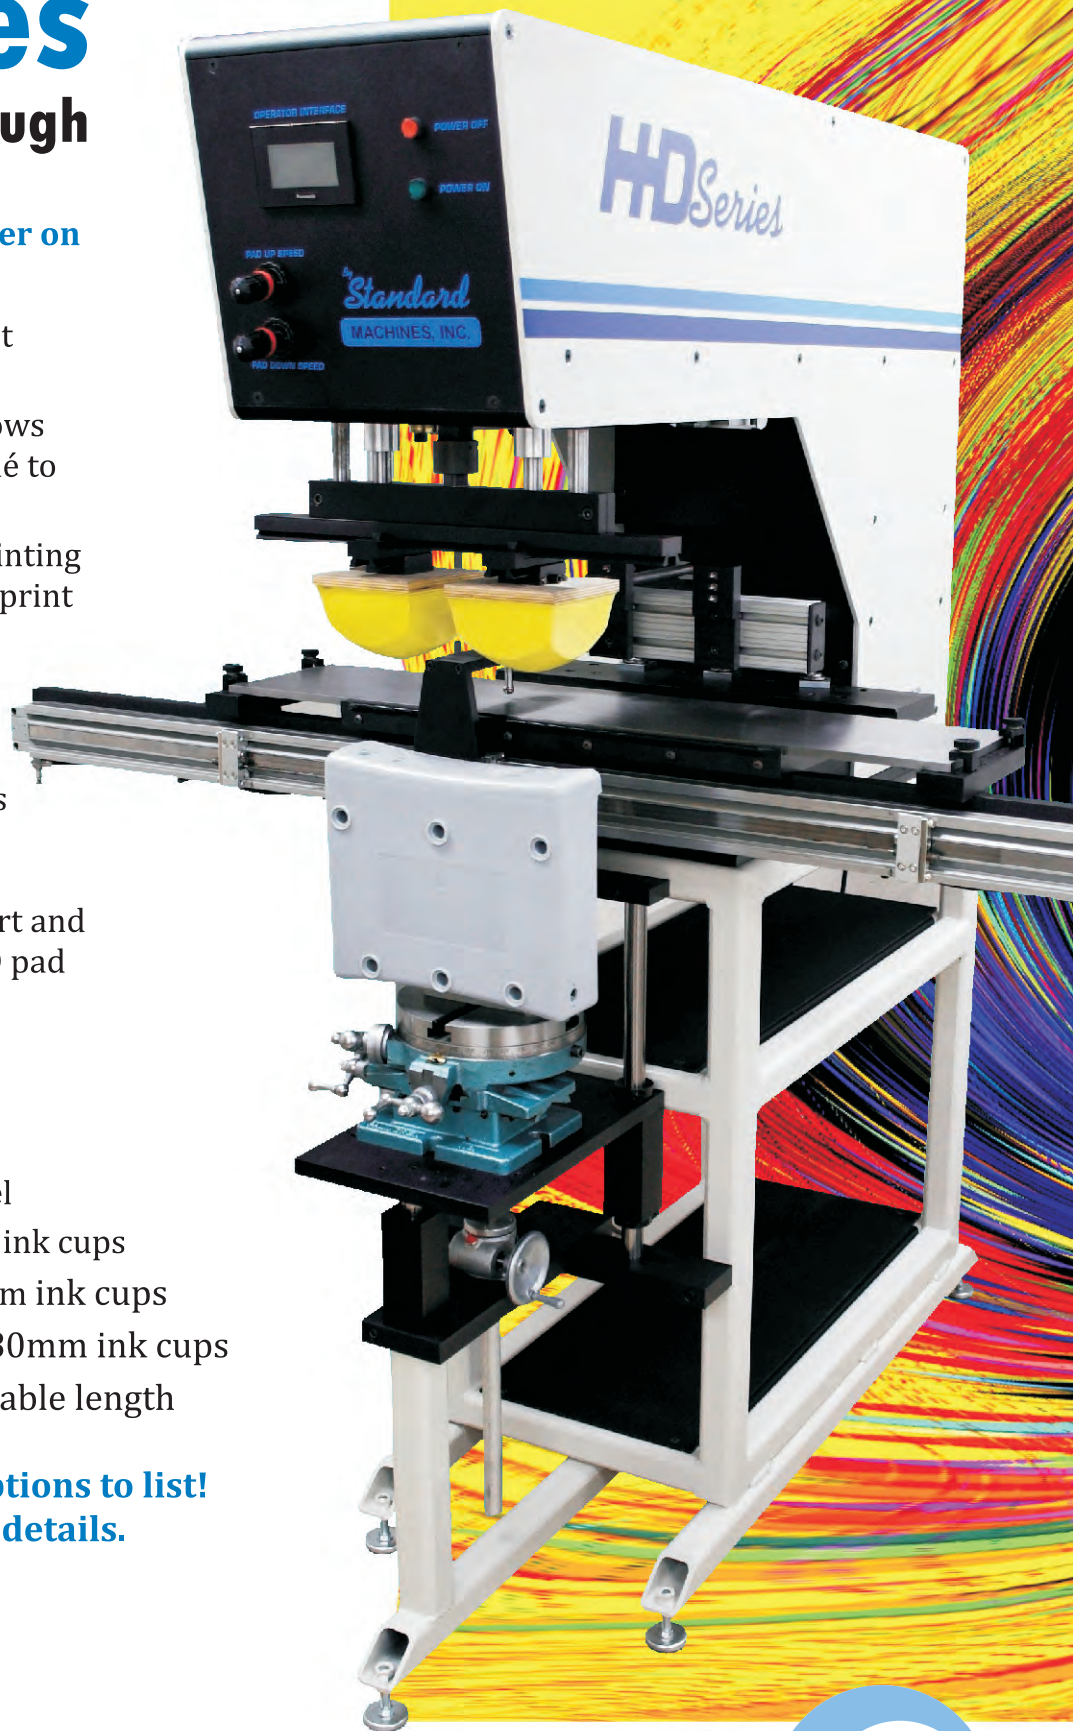

There are just too many options to list!
